

# SIGNPAD

INSTANT SUITE

The SignPad is an interactive POS display solution, associated with Instant Signage

**This multilingual digital interaction solution** can collaborate with different audiences, providing dual language options for visitors. SignPad helps **to reinforce the brand image of your company** and **helps develop further interaction with your visitors**.

The SignPad allows you to view websites, watch any corporate or advertising film, read PDF brochures, launch widgets, and push promotional content. In your sale points, SignPad replaces traditional POS.

Multilingual  
management of content  
via Instant Signage

Videos, brochures,  
Android apps,  
website, images...

Centralised  
management of all  
SignPad

Easy creation of  
interactions with  
customers

## DIGITAL AND INTERACTIVE POS DISPLAY SOLUTION

- When linked with Instant Signage, allows you **to interact with your customers and prospects** at your sale points and communication points.
- **Reinforce your company's brand image.** You boost your customers' knowledge of your products.
- You contribute efficiently to reach your KPIs.

## CORPORATE, PROMOTIONAL CONTENT AND APPS

- From your browser, the SignPad allows you to fully **manage corporate and/or promotional content** according to your current objectives, and to feed your CRM tool.
- You can **use any Android application** for your customers.
- Via **Instant Signage**, you can manage the content as well as layouts. Manage content on a regional scale, by country or individually, all from your computer.
