

INSTANT BOOKING

INSTANT SUITE

Instant Booking is the multilingual solution for optimising your workspaces

Instant Booking provides your end-users with an unrivalled level **of control of resource reservations and room services** (management of flex office, visitor reception and room services). Combined with RoomPad®, GroomPad, Instant Mobile, GuestPad and Instant Flex, you benefit from a complete and intuitive solution **to optimise the management of your workspaces**.

An optional **Outlook plugin** also allows you to significantly improve the user experience for reservation of resources (advanced filtering, favorites).

Optimise the use of
your meeting rooms

Simplify end-user
experience

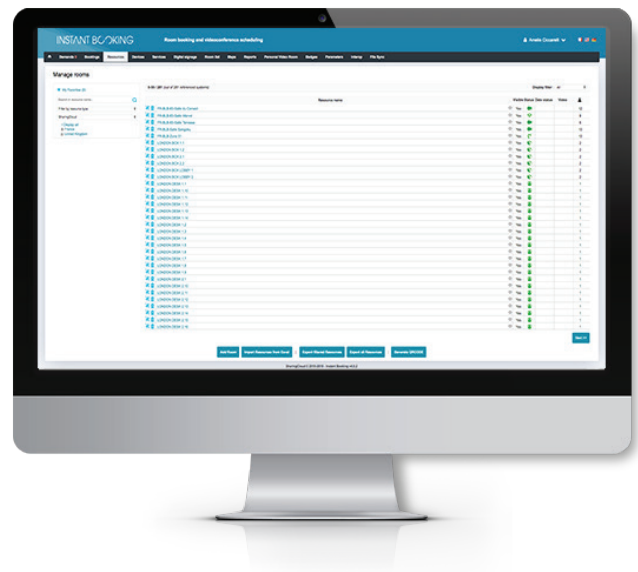

Find quickly a
workspace and book
it on the fly

Increase the return
of investment of your
workspaces

Instant Booking, allows your employees and administrators to:

- **Book** a room or workspace available anywhere in your buildings, 24 hours a day **via your existing technological tools**, RoomPad® and GroomPad, the Instant Booking portal, or your phone via Instant Mobile.
- **Invite** and **welcome** visitors easily.
- **Report** an issue in a room or building.
- **Manage** associated Room Services (catering, videoconferencing, VIP support, room reconfiguration, etc.).

Thanks to the **intuitive user interface**, your administrators have a permanent update of all bookings. **Dashboards and metrics** allow them to control the entire room inventory in order to optimise management and **return on investment**.
